Project Description

According to EIB website, the project is consist of a framework loan to support thermal building refurbishment in the municipality of Chisinau. The project includes two components; the first component will focus on the renovation of a list of pre-identified public buildings. The second component will be structured as a framework loan and allocations will target both the public and residential sectors.

It intends to increase the energy efficiency of public and residential buildings, which will have a significant impact on CO2 emission reduction and thus contribute to climate change mitigation. Besides this, energy efficiency investments will generate local and regional economic activity, particularly in the construction industry, and therefore support the development of the private sector and small and medium-sized enterprises (SMEs).

The project is acceptable from an environmental and social perspective.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form>, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:
