## Project Description

According to EIB website, this project involves the construction of a combined cycle gas turbine, heat and electricity cogeneration plant to replace obsolete, mostly oil-fired, environmentally non-compliant heat-generation assets in Zagreb. The project will ensure reliable heat supply to the district heating network in Zagreb, improve the security of electricity supply in Croatia, increase competition on the Croatian electricity market and, thanks to the use of gas (replacing heavy fuel oil) and highly efficient cogeneration, decrease pollution levels and contribute to reaching efficiency targets. The project will be implemented in a less developed region as defined by the Commission Implementing Decision 2014/99/EU. The programme is therefore eligible under Article 309 a) Projects for developing less-developed regions, and c) Common Interest of the Treaty on the Functioning of the European Union.

## Investment Description

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
