Sectors	Education and Health, Law and Government
Investment Type(s)	Loan
Investment Amount (USD)	\$ 118.40 million
Project Cost (USD)	\$ 245.01 million

Project Description

According to the Bank's website, the project will finance the construction and equipping of two new regional hospitals in the Republic of Moldova: the Balti Regional Hospital (BRH) in the north and the Cahul Regional Hospital (CRH) in the south.

The aim is to decentralise tertiary healthcare services and improve their accessibility in both the northern and southern Moldova, thereby enhancing the overall provision of healthcare in the country. The project will support the effective implementation of Moldova's National Health Strategy 2022–2030 by strengthening social assistance mechanisms and promoting an inclusive society. This will be achieved through improved access to hospital care and by enhancing the outreach and quality of healthcare services.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet:

In the Republic of Moldova, the law regulating Environmental Impact Assessment (EIA) is Law No. 86, adopted on 29 May 2014. This law establishes the legal framework for assessing the environmental impact of certain public and private planned activities.

Based on the information provided to the Bank, the construction of the new hospital will not require any land acquisition and result in involuntary resettlement. Should the need for land acquisition and any involuntary resettlement in relation to the construction of the Cahul Regional Hospital arise, the relevant Bank standards will apply.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
