Project Description

According to EIB website, the project is involved with the design, construction and equipping of a new state-of-the-art medical simulations centre at the Medical University of Warsaw, including other eligible intangible investments (relevant training of staff to operate the simulations' applications, and research, development and innovation (RDI) activities). The project also includes the thermo-modernisation of the Pharmacy Faculty building to improve the energy efficiency of the building. Primarily, the project will enable the modernisation of the curricula of undergraduate medical and health sciences students with the use of top-notch simulations' technologies. The centre will also host executive education and training for medical professionals. The centre will be located in Warsaw, Poland, at the Medical University's main campus.

In terms of environmental aspect, the new building will be required to, at least, meet the minimum national targets concerning energy efficiency. The energy performance design of the building and any specific related targets to be met will be verified during appraisal.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
