Project Description

According to EIB website, the operation will support eligible investment schemes in Polish regions. The programme supports regional development and infrastructure modernisation. The operation will support multi-sector investment programmes of Polish regions. Regions that potentially may benefit from this operation are categorised as less-developed, with the exception of the Mazowieckie voivodeship. Investment programmes of Polish regions are embedded in the context of comprehensive regional development and sectorial strategies, as well as regional and local integrated land-use planning. The schemes implemented under individual programmes are expected to increase connectivity and economic activity through better and safer road infrastructure for all road users, and through improved effectiveness of public services and cultural facilities for the benefit of all citizens in the regions.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form>, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:
