<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 79.73 million
<b>Project Cost (USD)</b>	\$ 179.64 million

### Project Description

According to bank provided information, the project objective is to improve drinking water and sanitation services for the capital city of Djibouti through the construction of Doraleh Desalination Plant, and Doraleh, Balbala and Douda wastewater treatment plants.

The main objective of the project is to improve drinking water and sanitation services in the capital city of Djibouti (in terms of coverage and quality of the services). The project is also expected to contribute to improved public health and environmental benefits notably by preventing further depletion of groundwater aquifers and through increased adaptation to climate change. Finally, the project will create economic opportunities for the population and local businesses, thus contributing to development of the capital and surrounding areas.

The EIB contribution will complement earlier and ongoing interventions of the EU and AFD in the water sector in Djibouti.

### Investment Description

- European Investment Bank (EIB)

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

[http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:

<http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
