Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 5.64 million
Project Cost (USD)	\$ 146.74 million

Project Description

According to bank disclosure information, the investment fund will provide debt and mezzanine financing to energy access companies that provide distributed generation solutions (primarily based on solar energy) to households and small and medium-sized enterprises (SMEs) mainly in Africa and Asia. This operation will be under the Luxembourg-EIB Climate Finance Platform.

The financing offered by the Fund will include working capital to finance inventory and/or receivables of energy access companies, as well as project debt to finance larger distributed generation projects for SMEs. Investments will be primarily in US Dollars, and on a selective basis in local currencies. The targeted geographical allocation of the Fund is 60% Sub-Saharan Africa and 40% South-Southeast Asia. The Fund will address a financing gap in the off-grid solar market, where the growth of off-grid solar energy providers is hampered by the lack of financing available from commercial banks due to the illiquidity of assets to be utilised as security by lenders.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form>, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:
