## Project Description

According to the bank website, the project consists of the modernisation of the regional hospital in Liberec.

The project supports the Promoter in the implementation of the first phase (2021-2025) of its long-term investment programme, which has been designed to improve the quality and efficiency of its services delivery. Further strategic objectives include ensuring the long-term sustainability and adaptability of healthcare services to the current and future needs of the relevant population. The project involves the consolidating of emergency care and intensive care in one new building (the CUM - Emergency Medicine Centre). The CUM building will provide space for a trauma centre, an anaesthesiology and perioperative care unit, an intensive medicine department, part of a cardio-centre, a medical diagnostic imaging centre, centralised operating rooms including recovery and inpatient ward, a laboratory and a central sterilisation unit. The project also entails the construction of a multi-storey car park with an energy centre in its basement.

## Contact Information

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
