### Project Description

According to EIB website, the project will support a multi-sector investment programme of the Lazio Region. It is expected to have a number of significant positive externalities and spillover effects resulting from the implementation of the investment priorities supported by the operation, which are well integrated into the planning process and the socioeconomic objectives of the regional strategies and plans. Some of these externalities are:

- Reduction of CO2 emissions due to energy efficiency in buildings
- Decrease in the operational costs of public buildings because of energy savings
- Reduction of air pollution
- Improvement of the preparedness of the health and social provision systems
- Reduction of flood risks
- Preservation of natural and cultural heritage
- Improvement of waste management and recycling
- Upgrading of water infrastructure
- Improvement of the quality of life and productivity derived from a better use of public funds

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
