Bank Risk Rating	U
Voting Date	2020-11-19
Borrower	CEPS AS
Sectors	Energy
Investment Type(s)	Loan
Loan Amount (USD)	\$ 5,933.13 million

Project Description

This project aimed at reinforcing the electricity transmission infrastructure of the Czech Republic's multi-component investment programme covering the period 2020-2024.

The project concerns electricity transmission schemes (overhead lines, new substations, and works in existing facilities) some of which will fall under Annex I of the Environmental Impact Assessment (EIA) Directive and will have to undergo an obligatory environmental impact assessment, while most of the remainder will fall under Annex II, which requires the competent national authority to determine the need for an EIA. The main impacts that can typically be expected for a project of this nature relate to visual impact, vegetation clearance, electromagnetic fields, noise nuisance, impact on flying vertebrates, and disturbance during construction.

Investment Description

- European Investment Bank (EIB)

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
