AENA RESILIENCE AND SECURITY

Quick Facts

Countries	Spain
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	U
Voting Date	2022-12-21
Borrower	AENA SME SA
Sectors	Transport
Investment Type(s)	Loan
Loan Amount (USD)	\$ 848.64 million
Project Cost (USD)	\$ 1,723.75 million

Project Description

Based on the bank's disclosure page, the project will finance AENA's capex plan under the DORA II airport regulatory document in the 2022-2026 period. Related works concern AENA's headquarters in Madrid as well as the whole airport network across Spain.

A number of components included in this project would normally be classified under Annex II of the Directive 2011/92/EU amended by the Environmental Impact Assessment (EIA) Directive 2014/52/EU, meaning that the Competent Authority makes the decision as to whether a formal EIA is required or not. Alignment to this and to other national and EU environmental legislation, including the EU Directive on Energy Performance of Buildings, and the status of any pre-existing development consents will be reviewed and assessed during appraisal.

The investments concern safety & security (including compliance with the latest regulatory updates by the European Aviation Safety Agency in terms of airfield layout), operational resilience (including rehabilitation of airside pavements, rehabilitation of existing buildings, upgrade of airfield ground lighting, renovation of utilities networks), IT and innovation.

The Bank will require the promoter to ensure that contracts for the implementation of the project have been tendered in accordance with the applicable EU procurement legislation: 2014/25/EU as well as Directive 92/13/EEC as interpreted by the Court of Justice of the EU, with the publication of tender notices in the EU Official Journal, as and where required.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
