

 Early Warning System

EIB-20210194

EAST AFRICAN RIFT GEOTHERMAL

Quick Facts

Countries	Kenya
Financial Institutions	European Investment Bank (EIB)
Status	Proposed
Bank Risk Rating	U
Borrower	PRIVATE ENTITY(IES)
Sectors	Energy
Investment Type(s)	Loan
Loan Amount (USD)	\$ 95.30 million
Project Cost (USD)	\$ 595.64 million

Project Description

According to bank provided information, the operation is an envelope for financing individual private sector investments into geothermal power generation projects in different countries in the East African Rift region. Sub-operations under the envelope will undergo individual project appraisals and be separately approved for Bank financing.

The proposed envelope will allow the EIB to provide financing to several projects implemented by promoters active in the geothermal power sector in the region. Eligible projects will typically include greenfield development and brownfield expansions, with proven geothermal resources. Investments in geothermal energy will help diversify base load renewable electricity supply in the region and contribute to the reduction in greenhouse gas (GHG) emissions compared to fossil-fuel based alternatives, thereby supporting the sustainable economic development of the East African Rift countries.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:

<http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
