BorrowerGovernment of Guinea-BissauSectorsInfrastructure, Transport

Investment Type(s) Loan

Investment Amount (USD) \$ 149.03 million Project Cost (USD) \$ 223.54 million

### **Project Description**

According to the Bank's website, the project will finance the rehabilitation and climate change resilience enhancement of the N2 highway between Safim and Mpack (115 km), corresponding to a section of the Dakar-Lagos Trans-African Highway corridor No.7 (TAH-7). More specifically, this includes widening the existing road to accommodate hard shoulders, as well as the rehabilitation of two major and five minor bridges.

The EIB loan will support road rehabilitation works on the approximately 65 km-long section, starting from PK45 close to village of d'Antotinha to the M'Pack border crossing.

This project will bring significant improvements in the country, such as increased mobility and safety, better access to trade and economic activities, as well as essential services.

The project will also promote regional integration, enhancing Guinea-Bissau's potential to trade with neighbouring countries and within the wider West African market. Additionally, it will benefit through economies of scale from an expanded market in an integrated African economy under the African Continental Free Trade Area (AfCFTA) which entered into force on 1 January 2021.

### **Investment Description**

• European Investment Bank (EIB)

Under EFSD+ Guarantee

The project is also being co-financed by the World Bank.

You can submit an information request for project information at: https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints mechanism policy en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
