Project Description

According to the Bank's website, the project is a framework loan and consists of the new construction, renovation and equipping of education facilities in Serbia. The preliminary list of schemes shared by the Promoter consists mainly of regional training centres, offering vocational upper secondary, tertiary and adult education aligned with the labour market needs. However, given that the proposed operation is a framework loan, the final scope will only be known at allocation stage and, therefore, the project could also include investments in pre-primary, primary and secondary general education.

The project supports the Serbian Government with the implementation of its Strategy for Education Development by 2030, which aims at improving the quality and the relevance of the education system. The project also includes energy efficiency measures to significantly improve the energy performance of the education facilities and provision of new equipment to support new pedagogical methods.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
