Project Description

As stated by the EIB, the project consists of the construction of an underground road link "Lamiako Tunnel" connecting the two banks of the Nervion river in the outskirts of Bilbao, Spain. The road link will connect to A8 Santander-Bilbao TEN-T Core network Atlantic corridor, within the Bilbao Urban Node. The 3.9 km long link consists of a 3.2 km twin tube tunnel and connecting roads, including two interchanges and three at-grade intersections. Each tube will include two lanes one-way road. In addition, the western tube will integrate a single-track underground light metro over 300 m.

The project will provide with a new transport link across the Nervion river and serve as an alternative to a Rontegi bridge that, despite its high capacity, suffers from congestions. It will improve traffic conditions and reduce road traffic air emissions in five municipalities of the Greater Bilbao agglomeration and beyond. The project will contribute to climate change mitigation and adaptation, by providing with a resilient shorter road connection and by including an infrastructure for a future underground metro line. The project will contribute to the development of the TEN-T Atlantic Core Network Corridor within the Bilbao Urban Node and its port, and thus improve connectivity and inter-modality.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
