Project Cost (USD)	\$ 247.52 million

Project Description

According to the Bank's website, the operation will finance the promoter's research, development and innovation (RDI) activities in the automation and digitalisation of internal processes, as well as in the development of new technologies, materials and processes to support its broad product portfolio.

The project covers the promoter's RDI programme for the period 2025–2028, carried out by the central research and development unit, Freudenberg Technology Innovation (FTI).

The aim is to strengthen the promoter's long-term competitiveness through technology and innovation leadership. The project comprises a portfolio of RDI investments across the promoter's key business segments.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, the project concerns investments in research and development that will be carried out in existing facilities without changing their already authorised scope. The project does not have any significant environmental impact.

ACCESS TO INFORMATION

You can submit an information request for project information at: https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints mechanism policy en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
