Project Description

According to the Bank's website, the project consists of a multi-annual investment programme into small-scale photovoltaic (PV) plants (~10 MW average nominal capacity) separated in two portfolios (14 units and 12 units, respectively), with a total installed capacity of 255 MW, at geographically dispersed locations throughout Italy, including Sardinia and Sicily.

The project produces electricity from low-carbon sources (solar PV) in Italy and addresses the market failure of negative climate and environmental externalities, through the reduction of carbon emissions and air pollution. The project supports EU Renewable Energy objectives and supports Italy in meeting its commitments with respect to renewable energy targets (87 GW of RE by 2030) and greenhouse gas emission reductions set out in the Integrated National Energy and Climate Plan (INECP) revised after the publication of the EU Green Deal.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
