## Project Description

According to bank documents:

The project concerns a large scale, fixed-bottom offshore wind farm with a total nominal capacity of 960 MW, comprising 64 wind turbines of 15 MW unit capacity, monopile foundations and inter-array cabling. The grid connection, comprising an offshore converter station as well as two HVDC export cables at a distance of over 120km subsea and 110km onshore, is implemented by the responsible Transmission System Operator (TSO) outside the scope of the Bank's financing.

The project is located in a dedicated zone for offshore wind development in the German Economic Exclusive Zone of the North Sea. Wind farms adhere to Annex II of Directive 2014/52/EU amending the EIA Directive 2011/92/EU, thereby leaving it to the competent authority to determine if an Environmental Impact Assessment (EIA) is required. The competent authority required an EIA to be conducted, and the promoter delivered the project's EIA studies as part of permitting process. Compliance of the authorisation process with relevant EU Directives will be verified during appraisal.

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
