Project Description

The promoter's technologies enable highly precise and efficient analysis of T-cell immunity required to deliver a range of therapeutics and vaccines that specifically harness or manipulate T-cell immunity. With a focus on delivering T-cell receptor modified T-cell therapies (TCR-T) in oncology, the promoter is rapidly progressing a pipeline of novel therapies towards clinical trials utilising its own manufacturing capabilities.

The promoter's breakthrough technology has high market potential to address multiple indications and unmet medical needs, well aligned with EU policy priorities. The EIB project will support development of pre-clinical and clinical pipeline of therapeutics, as well as upgrading to Good Manufacturing Practices (GMP) certification the company's own manufacturing unit.

The loan will finance the research and development investments to further advance the promoter's product pipeline.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
