ESBJERG PORT EXPANSION

Quick Facts

Countries	Denmark
Specific Location	City of Esbjerg
Financial Institutions	European Investment Bank (EIB)
Status	Proposed
Bank Risk Rating	U
Borrower	DEN KOMMUNALE SELVSTYREHAVN ESBJERG HAVN
Sectors	Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 69.99 million
Project Cost (USD)	\$ 139.97 million

Project Description

According to the Bank's website, the project will expand the capacity of the Port of Esbjerg, by deepening of the navigation channel to enhance the port's capacity and interconnectivity for both civil and military use. It will also create a new 57ha terminal to cater to the needs of the offshore wind energy industry of the North Sea. Additionally, it will include coastal protection measures to prevent flooding as part of the Climate and Risk Control Plan of the City of Esbjerg.

The project will enhance intermodal transport, thus improving the sustainability of the transport chains, in line with the EU objectives related to TEN-T network development. Furthermore, it will contribute to the EU Action Plan for Military Mobility. Part of the project will also improve flood protection. As the facilities will also be used to install offshore wind farms, the project will also reduce the costs for the development of offshore renewable energy infrastructure in Europe and hence contributes to the renewable energy objectives set by the EU energy policy.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
