## Project Description

According to the Bank's website, the project concerns the construction and refurbishment of a number of facilities on the university campus of the Grigore T. Popa Medicine and Pharmacy University of Iasi.

The project will finance the construction, extension, renovation and rehabilitation of university premises in Romania. The main objective is to provide better learning conditions for students, as well as improved working and research conditions for university staff, by creating additional capacity in academic and research buildings and by renovating existing spaces that are no longer fit for purpose. These investments are also aimed at adapting infrastructures to new technologies, providing additional or modernised student accommodation, improving accessibility for people with disabilities, and also improving the energy efficiency of buildings. All building construction and renovation projects will be energy efficient and will follow energy efficiency standards. The final beneficiaries for this project are current and future students, as well as university staff.

---

### Early Warning System Project Analysis

One existing building concerned is classified on the List of Historical Monuments (LMI) as a grade B architecture monument, and/or included in a protected area as per PUG/RLU. According to the city of Iasi PUG (RLU sheet-Territorial Reference Units) 2 buildings are located in the CP zone (Central area located within the perimeter protection of historical and architectural urban values).

As the project concerns construction and refurbishment works in an urban area within or close to the existing facilities, no significant environmental impact is expected.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
