### Project Description

According to the Bank's website, the project will finance the upgrade of the sludge treatment process within the wastewater treatment plant in Modrice, which serves Brno, the second largest city in the Czech Republic.

The aim is to address the insufficient capacity of the sludge treatment process and improve the net energy balance of the wastewater treatment plant.

The planned improvements will also ensure compliance with the recent stricter regulatory limits in the field of sanitary sludge disposal by providing higher standard treatment solution, which allows for more versatile and safer disposal options.

---

### Early Warning System Project Analysis

Negative impacts will be only temporary and include possible disruption of traffic, and noise. As the works will be fully carried out within the perimeter of the existing treatment plant, disruption to the neighbourhood during construction will not be significant.

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
