## Project Description

As stated by the EIB, the project, part of ETRA's 2023-2027 investment programme, concerns the implementation of different schemes of circular economy and solid waste, as well as water sector.

The project concerns the implementation of different schemes of the Circular Economy(CE)/Solid Waste(SW), and the water sector. The CE/SW project components include the acquisition of collection equipment (underground containers, semi-trailers, compactors, bio-methane powered trucks, etc.). It also consists of the upgrading of the Anaerobic Digestion plant located in Bassano del Grappa into biomethane; the construction of two new composting lines into the actual AD plant located in Camposampiero; the revamping of a paper recycling unit in Campodarsego; the retrofitting of a composting unit in Bassano del Grappa and another composting plant in Camposampiero; the upgrading of an existing plastic sorting plant. Moreover, it comprises also the construction of four new sorting stations dedicated to recycling material. Finally, the CE/SW project component comprises the upgrading of the gas and leachate treatment system of a closed landfill. As far as the water sector component is concerned, it consists of the maintenance of tanks and the revamping of 158 km of drinking water infrastructure. It comprises also the revamping of the "centrale di Oliero". Finally, this component includes the construction of new conveyance/water networks and the upgrading filtration system.

### Private Actors Description

As stated on the company's website, Etra - Energy Territory Environmental Resources is a fully publicly owned multi-utility, i.e., a company subject to the management and coordination of the member municipalities under Art. 30 of the TUEL (Service Conference), which carries out a number of services of public importance.

Etra's activities are carried out in the Brenta River basin, which extends from the Asiago Plateau to the Euganean Hills, including the area of the Bassano area, the Alta Padovana and the urban belt of Padua. This territory, through its representatives (municipalities and Brenta Basin Council), has entrusted Etra with essential tasks for the community: the management of integrated water service and waste management.

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

[http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
