Borrower	OEBB-INFRASTRUKTUR AG
Sectors	Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 123.56 million
Project Cost (USD)	\$ 274.91 million

---

## Project Description

According to the Bank's website, the project will finance the acquisition of 18 high-tech-hybrid service jets trains for fire extinguishing and rescue, serving in maintenance, train rescue and firefighting roles. The new trains will have three propulsion systems, such as electric, battery only and diesel (emergency-use only).

By replacing the existing, obsolete and age expired fleet, the project will enable the Austrian railway network to continue delivery essential maintenance and safety services with improved operational efficiency, reliability and effectiveness.

The three carriage train is designed for bidirectional movement without the need for reconfiguration and can reach speeds of up to 160 km/h. This significantly reduces response times in emergencies compared to the existing OEBB firefighting and rescue trains.

---

## Investment Description

- European Investment Bank (EIB)

## Private Actors Description

*ÖBB-Infrastruktur AG* (sometimes abbreviated to ÖBB Infra) is a subsidiary of ÖBB-Holding AG. ÖBB-Infrastruktur is responsible for train path allocation, operation, and maintenance of the Austrian rail network, as well as the planning, design, and construction of rail infrastructure, stations, and stops. The company's sole shareholder is ÖBB-Holding AG, which is wholly owned by the Republic of Austria (federal government). As of December 31, 2022, ÖBB-Infrastruktur holds 24 investments in other companies.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
