Project Description

According to the Bank’s website, the project will finance a multiannual investment plan of the largest regional healthcare provider in the Czech Republic.

The aim is to improve the condition of technical infrastructure of several hospitals managed by the borrower during the period of 2023-2031.
The project is expected to generate a range of economic and social benefits. By providing modern hospital buildings, designed according to modern requirements, the investment will: increase the quality of care and safety of medical procedures, allowing for fewer readmissions; improvement in working conditions for medical professionals, ability to retain scarce qualified medical staff in the new buildings, enhanced capacity for an effective response to changing health care needs of an ageing population, and a more efficient operation in purpose-built facilities.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, as the Project covers construction works within or close to the existing hospital facilities, no significant impact is expected on the environment.

The Project does not have any significant negative social impacts, as the Promoter is expected to carry out its activities in compliance with applicable Czech labour and social standards.

Based on the environment, climate and social (ECS) information and based on the management systems in place, the Project is deemed to have low residual ECS risks and impacts.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
