Project Description

According to the EIB, the project will finance the construction of a new Bravis hospital to be located between the current two increasingly outdated facilities in Bergen op Zoom and Roosendaal, which will be replaced by the future hospital.

It is expected that the project will bear comprehensive benefits to the community, as healthcare is an element of social cohesion and economic development.

The aim is to increase the efficiency of the medical care, by centralising all healthcare activities in one single location and optimally designed premises, which will allow Bravis to operate in a more agile and efficient way.

The future hospital will also accommodate the expected growth in healthcare demand, particularly by enabling wider use of e-health and remote monitoring tools, as well as through cooperation with ancillary healthcare providers like rehabilitation and elderly care, on the same campus. This will make Bravis more sustainable, with an improved climate profile.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
