EIB-20230858

PARIS DISTRICT HEATING CONCESSION

## Quick Facts

<b>Countries</b>	France
<b>Specific Location</b>	Paris district
<b>Financial Institutions</b>	European Investment Bank (EIB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	U
<b>Borrower</b>	Paris district
<b>Sectors</b>	Energy
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 410.66 million
<b>Project Cost (USD)</b>	\$ 547.54 million

---

## Project Description

According to the Bank's website, the project concerns an investment programme for the further development and decarbonisation of the Paris district heating network under its upcoming new concession agreement.

The aim is to increase overall energy efficiency of the heating system by expanding the service to new areas, densifying the grid through new connections and upgrading it with new equipment and control systems, in line with the EU and national renewable energy targets.

The project is also expected to substitute individual and central fossil fuels heating with more sustainable and efficient centralised heating systems, resulting in primary energy savings and reduction of emissions of greenhouse gases. The detailed project scope is not known at this stage.

---

### Early Warning System Project Analysis

Based on the technical characteristics and information provided at this stage, the project components would fall under Annex II of the Environmental Impact Assessment Directive (EIA), 2014/52/EU amending 2011/92/EU, which requires the competent national authority to determine the need for an EIA.

Potential impacts such as air emissions, groundwater, surface water and soil contamination, impacts on Natura 2000 sites, or noise levels will be reviewed at appraisal.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
