LIGNE DE TRANSMISSION DORSALE EST- COTE D IVOIRE

Quick Facts

Countries	Ivory Coast
Specific Location	Abidjan (Anyama), and East and North of Côte d'Ivoire
Financial Institutions	European Investment Bank (EIB)
Status	Proposed
Bank Risk Rating	U
Borrower	Cote D'Ivoire Energies
Sectors	Energy, Infrastructure
Investment Type(s)	Loan
Investment Amount (USD)	\$ 214.98 million
Loan Amount (USD)	\$ 214.98 million
Project Cost (USD)	\$ 417.18 million

Project Description

As stated by the EIB, the project involves the construction of a 400 kV high-voltage transmission line spanning approximately 540 kilometres, connecting Abidjan (Anyama) to the East and North of Côte d'Ivoire. The new line will reinforce the regional interconnections to Burkina Faso and Mali.

Additionally, the project will include a rural electrification scheme along the line.

The aim is to contribute to a reliable, efficient, and climate-friendly energy supply in the eastern regions of Côte d'Ivoire. The project will also contribute to a more reliable and efficient Ivorian interconnected grid and energy exchange in the West African Power Pool (WAPP) as well as to the integration of renewable energies into the interconnected grid.

This operation is in line with the country's new generation-transmission masterplan, contributing to the Nationally Determined Contributions (NDCs) to reduce carbon emissions by 30% and to achieve a 45% share of renewable energies in its energy mix until 2030.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

As stated on the company's website, the missions assigned to CI-ENERGIES are as follows:

- Plan the supply and demand of electrical energy;
- Ensure project management of investments in production, extension, strengthening and renewal of the transport, distribution and rural electrification network;
- Carry out the construction and operation of new state-owned electricity production plants;
- Ensure monitoring of the management of the operation of the service granted;
- Ensure the financial balance of the electricity sector.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
