FORMO (IEU GT2)

Quick Facts

Countries	Germany
Specific Location	Berlin
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	U
Voting Date	2024-12-16
Borrower	Formo Bio GmbH
Sectors	Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	\$ 36.81 million
Project Cost (USD)	\$ 76.77 million

Project Description

According to the Bank's website, the project will finance the promoter's research and development (R&D) activities and production capacity expansion related to substitutes of dairy and egg products based on precision fermentation.

The operation finances FORMO's RDI programme and technology scale-up in the field of precision fermentation and microfermentation for cheese and egg alternatives. The project will be developed in the EU between 2025-2027 and aims at developing a technology that can progressively replace conventional dairy and egg products. An increasing share of consumers value animal welfare and production sustainability and are willing to incorporate these products into their diets.

In line with the EU policy objectives of the Farm-to-Fork strategy, the project addresses the market failure of sub-optimal delivery of natural-resource efficient products by competitive markets, while generating positive externalities with clear impacts on climate change mitigation and biodiversity.

The aim is to contribute to deploy more sustainable animal-free cheeses using protein exudates from fungi. The project supports the Bioeconomy sector and is in line with the Invest EU Main Priority Areas (MPPA) under the Research, Innovation, and Digitisation Window (RIDW).

Investment Description

- European Investment Bank (EIB)

The proposed financing is a quasi-equity investment.

Private Actors Description

Formo is a food biotech company on a mission to bring the next generation of sustainable, healthy, and equitable dairy products to consumers.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
