COESIA ADVANCED MANUFACTURING TECHNOLOGIES RDI

Quick Facts

Countries	Germany, Italy, Sweden
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	U
Voting Date	2024-11-29
Borrower	COESIA SPA
Sectors	Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	\$ 52.90 million
Project Cost (USD)	\$ 112.15 million

Project Description

According to the Bank's website, the project will finance selected investments to be made by the Promoter in Research, Development, Innovation (RDI) and digitalisation in the field of automatic machines for a wide range of industrial applications. RDI investments will primarily be carried out in Italy between 2024 and 2026.

The aim is to develop new technologies and innovative products in several business segments of the Promoter, such as battery technologies, ceramics and automation.

Regarding battery technologies, the objective is to develop the Promoter's know-how in the different phases of cells manufacturing. In the field of ceramics, RDI activities focus on forming technologies, desiccation, improved sustainability in the use of raw material, energy efficiency as well as on digital decoration, meanwhile in the field of automation, RDI concern technologies and equipment for factory flow automation across multiple industries.

The project also includes RDI activities on technologies to be applied across several business applications, such as sealing and filling systems, as well as digital twins.

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
