## Project Description

As stated by the EIB, the project will support the Research and Development investments (RDI) of Lumicks into development of next generation cell avidity and dynamic single-molecule instruments, allowing real-time analysis of molecular and cellular mechanisms and interactions. With large applications in fundamental and applied research, the new instruments can speed up and enhance success rates in drug discovery and development.

The project supports the continued development, manufacturing scale-up and market access of Cellular Avidity and Dynamic Single Molecule instruments. These tools allow research institutions, biotech and pharma companies to conduct a more efficient rational drug design and development, ultimately giving more reliable in vitro results before entering in vivo models (clinical stage).

### Private Actors Description

As stated by the EIB, Lumicks is a pioneering life science tools company dedicated to accelerating drug discovery in cancer research and advancing the understanding of fundamental biological mechanisms at the molecular and cellular levels. Our innovative technologies empower researchers to reveal crucial insights into the biological complexity of health and disease, driving the development of next-generation therapies and accelerating immunotherapy breakthroughs.

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

[http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:
