Borrower	Government of Papua New Guinea
Sectors	Law and Government, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	\$ 25.00 million
Project Cost (USD)	\$ 39.00 million

---

## Project Description

According to the Bank's website, the project consists of the expansion of water supply services (WSS) to urban areas in Papua New Guinea, specifically to four provincial towns and the reduction of non-revenue water in the capital, Port Moresby.

Water PNG received support with this project to meet the national targets by 2030 for urban areas, namely provide 95% of the population with access to a safe, convenient and sustainable water supply. The non-revenue-water project component in Port Moresby will further reduce water loss and therefore improve the utility's revenues to sustain and support expansion into new district towns. The project will also contribute to achieving Sustainable Development Goals (6, 11 and 13).

## Early Warning System Project Analysis

The Promoter will be required to implement and operate the investments in conformity with national laws, as well as the EIB's environmental and social standards. The project intends to bring environmental benefits by contributing to the protection of both surface water and groundwater bodies through improving the efficiency of the water supply infrastructure. Most of the schemes to be financed under the investment loan are expected to have limited adverse environmental and social impacts. Where a formal EIA is required, a copy of the Environmental & Social Impact Study or the Non-Technical Summary (NTS) or equivalent document will be provided to the Bank, and published on its website. The Promoter will also be required to verify that none of the schemes submitted for financing by the Bank have a significant negative impact on any site of nature conservation importance. The Promoter's capacity to ensure that the schemes are in compliance with the EIB's environmental and social standards will be also verified at appraisal. The project is expected to contribute to climate action and environmental sustainability (CA&ES) objectives, in particular to climate mitigation, climate adaptation, sustainable use and protection of water and marine resources.

*No contacts available at the time of disclosure.*

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
