EIB-20240141

RENOVATION CAMPUS FRANCE

Quick Facts

Countries	France
Financial Institutions	European Investment Bank (EIB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of France - Public Universities
Sectors	Construction, Education and Health, Infrastructure
Investment Type(s)	Loan
Investment Amount (USD)	\$ 525.28 million
Project Cost (USD)	\$ 1,050.56 million

Project Description

According to the Bank's website, the Lending Envelope concerns investments in the construction, renovation, and rehabilitation of education and research infrastructure at several public universities located in France.

The proposed lending envelope is designed to assist public universities in France in improving readiness to contribute to the European Higher Education Area and the European Research Area by strengthening its teaching and research capabilities. Accordingly, the project is consistent with EU actions aimed at increasing investment in research and human capital formation in a member state.

With the exception of the capital region Île de France and the Rhône-Alps region, all regions concerned by the lending envelope are EIB Cohesion Priority Regions. At least 59% of investments under the lending envelope are expected to be carried out in regions classified as transition or developing regions.

Part of the cost will be used to improve energy efficiency of the buildings and to reduce energy consumption. As a result, the project will also contribute to the environmental targets of the EU.

Early Warning System Project Analysis

The Directive 2011/92/EU amended by 2014/52/EU does not specifically mention the need for an Environmental Impact Assessment (EIA) for buildings relating to education, but it may be that some sub-projects can be regarded as urban renewal projects (Annex II of the European Directive). This will be verified for each sub-operation during the appraisal.

Directive 2010/31/EU amended in 2018 by Directive (EU) 2018/844 on the Energy Performance of Buildings will be checked during appraisal for each sub-operation on a case-by-case basis.

The possible impact on natural sites will be checked during the appraisal of each sub-operation.

The project is expected to contribute to climate action and environmental sustainability (CA&ES) objectives, in particular to climate mitigation and climate adaptation.

Social and employment aspects will be checked during appraisal for each sub-operation on a case-by-case basis.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
