EIB-20240169  
PORT OF GOTHENBURG I

## Quick Facts

Countries	Sweden
Specific Location	Gothenburg
Financial Institutions	European Investment Bank (EIB)
Status	Proposed
Bank Risk Rating	U
Borrower	Göteborgs Hamn AB
Sectors	Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 90.15 million
Project Cost (USD)	\$ 180.30 million

---

## Project Description

According to the Bank's website, the project, situated in the Port of Gothenburg within the city of Gothenburg, involves the reinforcement and deepening of approximately 700 meters of quay walls to facilitate containerised cargo handling. It forms part of the Skandiaporten project, a collaboration between the Swedish Transport Administration, the Swedish Maritime Administration and the Port of Gothenburg which aims at increasing the capacity of the deep-sea terminal to accommodate larger and/or more loaded ships.

The related works include, among among other activities, excavation, bank piling to secure the rock bottom, a new crane beam, replacement of sheet piling, construction of a new quay front, dredging, and erosion protection measures.

The aim is to contribute to the decarbonisation of a high-emitting transport sector by investing in critical infrastructure.

---

## Investment Description

- European Investment Bank (EIB)

Proposed EIB finance: SEK 850 million (EUR 77 million)

Total cost: SEK 1700 million (EUR 154 million)

---

### Private Actors Description

The municipally owned *Port of Gothenburg* (Swedish: *Göteborgs hamn*) is the largest port in the Nordic countries, with over 11,000 ship visits per year from over 140 destinations worldwide. As the only Swedish port with the capacity to cope with the very largest modern, ocean-going container ships, Gothenburg handles nearly 30% of the country's foreign trade, comprising 39 million tonnes of freight per year.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
