Borrower	Mykolayiv Vodokanal
Sectors	Infrastructure, Law and Government, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	\$ 82.13 million
Project Cost (USD)	\$ 82.13 million

Project Description

According to the Bank's website, the sub-operation aims at provision of potable water to Mykolaiv City.

The sub-operation is focused on restoring Mykolaiv City's access to potable water after severe damage to its supply infrastructure caused by Russian military actions in 2022 and the destruction of the Kakhovka Dam in 2023. This effort falls under the Ukraine Municipal Infrastructure Programme (2011-0487), supported by a EUR 400 million framework loan signed in 2015. With the city left without a reliable source of safe drinking water, the sub-operation prioritizes emergency and efficiency measures to re-establish a centralized water supply in Mykolaiv, aiming to quickly resolve the ongoing crisis and meet the population's basic needs.

Early Warning System Project Analysis

The sub-project implementation will generate significant environmental and social benefits, including improved water quality, reduced pollution, and enhanced energy efficiency. Public health will improve through the elimination of contaminated water sources, and temporary employment will be created during construction.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

Mykolayiv Vodokanal is the municipal utility of the City of Mykolayiv for water supply as well as for wastewater collection and treatment.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
