### Project Description

According to the Bank's website, the project consists of the purchase of 41 trains (DT6-F) to renew rolling stock on the existing lines of Hamburg metro network.

The project will contribute to improving public transport competitiveness and attractiveness in the city-State of Hamburg, thus reducing the reliance on private cars and the negative impact of transport on the local environment as well as improving road safety. In increasing the share of public transport with more underground trains and replacing old trains, the project will contribute to reducing greenhouse gas (GHG) emissions, improving air quality levels, reducing noise pollution and improving energy efficiency.

### Early Warning System Project Analysis

No negative social impact has been identified. The project does not require land acquisition. The project will have positive effects because it will strengthen the attractiveness of the public transport network and promote a better quality of life for the inhabitants of Hamburg region.

Given the fact that the project is not subject to environmental impact assessment, the project does not require public consultation.

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
