Project Description

According to the Bank's website, the loan will finance the multiannual investment programme of the Department of Calvados (Fr) under its Low Carbon Strategic Programme involving the new construction, reconstruction, extension and renovation of secondary schools, public buildings used by students as well as the related administrative buildings.

The aim is to provide good quality education, by adapting the secondary school facilities to the changes in the local demand. The project will also strengthen the resilience of school infrastructure to the risks of climate change and improve energy efficiency.

This Project is a multi-component investment loan comprising new constructions, reconstructions and renovations of lower secondary schools as well as departmental buildings facilitating access to education and wider educational activities in support of modernising the buildings and improving energy performance in the Calvados department of France.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
