Project Description

According to the Bank's website, the project will finance the renewal and upgrade of railway infrastructure in Estonia.

In details, it consists of three components:

- electrification (new and upgrade) of Tallinn-Muuga section;
- renewal of railway infrastructure, track and buildings;
- the development of a Wagon Management System.

The aim is to increase the quality of rail services in the country and promote rail travel. Consequently, it should enhance sustainable transport, in line with EU objectives.

Being located in a convergence region and facilitating mobility, the project also promotes regional development.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, the Project is crossing on existing alignment one Natura 2000 site – Seljamäe (EE0060211), protected under the Habitats Directive (section Kiltsi – Vägeva).

The following Natura 2000 sites are located in the Project's vicinity up to 5 km:

1. Paljassaare (EE0010170) – Protected under the Birds Directive
2. Piritä (EE0010120) – Protected under the Habitats Directive
3. Anija (EE0010109) – Protected under the Habitats Directive
4. Parila (EE0010111) – Protected under the Habitats Directive
5. Maapaju (EE0010113) – Protected under the Habitats Directive
6. Kõrvemaa (EE0060171) – Protected under the Habitats Directive
7. Ilmandu (EE0060210) – Protected under the Habitats Directive
8. Ebavere (EE0060215) – Protected under the Habitats Directive
9. Äntu (EE0060212) – Protected under the Habitats Directive
10. Endla (EE0080172) – Protected under both Birds and Habitats Directives
11. Kärevere (EE0080371) – Protected under the Habitats Directive
12. Ropka-lhaste (EE0080313) – Protected under both Birds and Habitats Directives

The competent authority concluded and confirmed that the Project is not likely to have significant negative effects on NATURA 2000 sites as per its letter issued in 2025.

The Project does not require land acquisition. It requires demolition of one existing non residential building (old hangar) .

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
