Borrower	Government of France - Region Pays de la Loire
Sectors	Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 114.27 million
Loan Amount (USD)	\$ 114.27 million
Project Cost (USD)	\$ 311.96 million

---

## Project Description

As stated by the EIB, the project consists of the acquisition of 2 new electric rolling stock and renewal of 100 existing electric rolling stock for regional passenger services in the Pays de la Loire region in France.

The acquisition of new rolling stock and the modernisation of the existing rolling stock should improve the quality and increase the offer of passenger rail services offered in the Pays de la Loire region, promoting more efficient operation, reducing maintenance costs, lowering energy consumption and increasing the level of comfort for passengers. The project will also focus on local and regional development reforging connections between cities and rural areas. The project will promote sustainable transport as it fosters modal shift from the road and therefore contributes to the reduction of CO2 emissions and pollution levels within and between the regional urban agglomerations. The impact on modal share would also improve transport safety. The rolling stock is expected to be used in a cohesion region (Pays de la Loire).

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
