Status	Approved
Bank Risk Rating	U
Voting Date	2025-11-11
Borrower	City of Tampere
Sectors	Construction, Education and Health
Investment Type(s)	Loan
Investment Amount (USD)	\$ 254.92 million
Project Cost (USD)	\$ 546.93 million

Project Description

According to the Bank's website, the operation will support selected education projects included in the City of Tampere's investment plan.

The aim is to support both major renovations and the new construction of educational buildings. The sub-projects are located in different parts of the city and accommodate different levels of education, ranging from pre-primary to lower secondary education.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, all Project components are located in an urban area and are partially covered by an approved land use plan, which can only be set up following a public consultation and the approval of the competent authority. For the rest of the locations, urban planning will be carried out and land use plans will be confirmed before the start of works. Due to the nature of the land use planning process, the Project most likely will not generate significant negative environmental effects during construction and operation.

As the Project concerns construction and refurbishment works in an urban area within or close to the existing facilities, significant environmental impacts are deemed unlikely.

Investment Description

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
