Sectors	Education and Health, Infrastructure
Investment Type(s)	Loan
Investment Amount (USD)	\$ 39.95 million
Project Cost (USD)	\$ 92.84 million

Project Description

According to the Bank's website, the project consists of various investments aimed at renovation and upgrade of teaching and research infrastructure of the Maria Curie-Skłodowska University in Lublin.

The project involves the modernisation and upgrading of several buildings and facilities at the Maria Curie-Skłodowska University in Lublin. The primary goal is to adapt the outdated existing infrastructure to the modern needs of the academic community. The secondary goal is to ensure compliance with current regulations, including technical conditions, fire protection, health and safety, hygienic and sanitary standards, and accessibility for people with disabilities. By addressing both regulatory compliance and the evolving needs of students and staff, the university aims to create a state-of-the-art environment for education and research. The renovations will also elevate the standard of living for students accommodated in the student housing facilities.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, one of the Project components, the modernisation of Roztoczanska Research Station, is located in the buffer zone of the Roztoczanski National Park and in Natura 2000 PLH060012 Roztocze area. A construction permit for this component was issued by the competent authority.

Based on the environmental, climate and social information and based on the review of the likely significant environmental, climate and social risks and impacts and the mitigation measures and management systems in place, the Project is deemed to have low residual environmental, climate and social risks and impacts.

Private Actors Description

Maria Curie-Sklodowska University (MCSU) is a public research university, in Lublin, Poland. It is named in honour of Marie Curie-Sklodowska. The University was founded on October 23, 1944, by the Lublin Committee during the Second World War. Since then, It has expanded to be the largest university in Eastern Poland, with over 12 Faculties in Lublin, and a satellite campus in Pulawy. The University has nearly 16,000 students, who study in over 90 disciplines. Out of those 16,000, over 1,600 are international students, who represent almost 45 countries.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
