### Project Description

According to the Bank's website, the operation will finance the construction of new premises and the upgrade of the J.A. Reiman hospital in Presov (Eastern Slovakia) elevating it to the highest standards for a dual-use military and civilian university hospital.

In detail, the project involves the extension of the existing campus with a new hospital building to consolidate the acute medical services in one integrated building with about 183 000 m<sup>2</sup> GFA (Gross Floor Area). The new building will provide space for about 932 standard beds (which, in case of need, can be extended and reprofiled to up to 1,236 emergency beds), 17 operation theatres and an extensive area for diagnostics and treatment with about 3 linear accelerators, 5 CTs, 3 MRIs and 6 conventional x-ray facilities.

The aim is to enhance the conditions for patient treatment and medical staff training while significantly improving the hospital's environmental sustainability, thereby reducing CO<sub>2</sub> emissions and dependency on fossil fuels in the future.

### Early Warning System Project Analysis

Hospitals are not explicitly mentioned in the environmental impact assessment (EIA) Directive 2011/92/EU (as amended by 2014/52/EU), though the project is covered by Annex II of the Directive concerning urban development. The compliance with requirements of the EIA Directive 2011/92/EU, as amended by 2014/52/EU on EIA and Habitats Directive, will be verified during appraisal. It is expected that the project will bring comprehensive benefits to the community, as healthcare is an element of social cohesion and economic development.

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
