Status	Proposed
Bank Risk Rating	U
Borrower	MOOVE CARS MOBILITY SL
Sectors	Energy, Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 59.44 million
Loan Amount (USD)	\$ 59.44 million
Project Cost (USD)	\$ 130.77 million

Project Description

As stated by the EIB, the project will support the company's shared mobility services in Spain, France, Italy, and the Netherlands.

Specifically, it involves the deployment of 3,000 electric vehicles (EVs), along with the associated charging infrastructure. The related investments are planned to be implemented between 2026 and 2029.

The project contributes to accelerating the electrification of the road transport sector and is aligned with the European Commission's comprehensive framework of policies to reduce greenhouse gas emissions including the Sustainable and Smart Mobility Strategy and the EU Green Deal. It is also aligned with the EIB's Climate Bank Roadmap and Transport Lending Policy.

Furthermore, by sourcing vehicles and charging equipment from European suppliers with production located within the EU, the investment aligns with the objectives of the Technology for Europe (TechEU) initiative, fostering innovation and growth of the European clean-tech value chain in clean transport technologies, and enhancing the resilience of EU supply networks. This contributes to reinforcing Europe's technological sovereignty and industrial competitiveness in the e-mobility sector.

Additionally, the project will contribute to climate action and environmental sustainability objectives, in particular to climate mitigation, and pollution prevention and control.

The project conforms with Article 309 point (a) projects for developing less-developed regions and point (c) common interest of the Treaty on the functioning of the European Union: Sustainable Cities and Regions.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
