Sectors	Construction, Law and Government
Investment Type(s)	Loan
Investment Amount (USD)	\$ 63.82 million
Project Cost (USD)	\$ 142.72 million

Project Description

According to the Bank's website, the project will finance the modernisation of CALT (Centre d'appui logistique et technique), the Logistics and Technical Support Centre of the Luxembourg's Grand-Ducal Fire and Safety Brigade.

By increasing the Grand-Ducal Fire and Safety Brigade's preparedness and capacity to respond to fires and other incidents, the project is expected to improve the overall safety of Luxembourg's population.

By improving the level of Luxembourg's disaster preparedness and management, the project contributes to the vertical EIB Public Policy Goal (PPG) of Natural resource use, management and protection.

The Project concerns the deconstruction of an existing building and the construction of a larger new building dedicated to two types of activities: (i) logistics and warehousing; and (ii) routine vehicle maintenance and light repair.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, the competent environmental authority is expected to decide on the need for an Environmental Impact Assessment as well as on the need to organise a public consultation.

As the Project concerns construction works in an urban area within an existing activity zone and close to existing facilities, significant environmental impacts are not expected.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

The *Grand-Ducal Fire and Rescue Corps* (*Corps grand-ducal d'incendie et de secours*, or CGDIS) has been the fire brigade of the Grand Duchy of Luxembourg since 1 July 2018. This replaced the previous federation of local fire services made up of volunteer firefighters, communal rescue services, civil protection organisations and the fire and rescue services of the city of Luxembourg and the Luxembourg air navigation administration (for Luxembourg Airport), both made up of professional firefighters.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
