

 Early Warning System

EIB-20250117
OVERTURE LIFE (IEU TI)

Quick Facts

Countries	Spain
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	U
Voting Date	2025-10-29
Borrower	OVERTURE LIFE SLU
Sectors	Education and Health
Investment Type(s)	Loan
Investment Amount (USD)	\$ 23.21 million
Project Cost (USD)	\$ 48.73 million

Project Description

According to the Bank's website, the European Investment Bank (EIB) has signed a €20 million loan with Overture Life SLU to invest in the automation of assisted reproductive processes and the use of AI to improve IVF (in-vitro fertilization) pregnancy outcomes and fertility preservation. The agreement was signed during the Women Leaders in Life Science conference organised by the European Investment Bank Group (EIB Group) as part of Bio-Europe taking place in Vienna Nov 4.

Overture Life's technology automates egg freezing and IVF procedures, increasing accessibility for women. Specifically, the DaVitri platform includes a tabletop device that automates the vitrification (egg freezing and thawing) preparation of human mature oocyte, enabling egg freezing beyond throughput-constrained fertility clinics. It is designed to integrate seamlessly with both existing and new embryology labs. It is expected to contribute to increasing IVF access in Europe, reducing user variability and improving ease-of-use for what is today a complex process.

Early Warning System Project Analysis

According to the Environmental and Social Data Sheet, based on the environmental, climate and social information and based on the review of the likely significant environmental, climate and social risks and impacts and the mitigation measures and management systems in place, the Project is deemed to have low residual environmental, climate and social risks and impacts.

Investment Description

- European Investment Bank (EIB)

A €20 million loan.

Private Actors Description

Overture Life integrates engineering, reproductive medicine, and regulatory-grade validation to modernize embryology lab procedures, particularly egg freezing and embryo handling, in ways that lower repeated cycles, increase throughput, and reduce the overall cost of IVF. With R&D in Spain and active U.S. operations, including a CLIA-licensed laboratory for non-invasive embryo selection, Overture unites robotics, analytics, and clinical rigor to deliver tools that clinics and patients can trust. The company's DaVitri platform aims to boost reliability and consistency in IVF, giving women and families worldwide more control over their fertility timelines. Overture's backers include Overwater Ventures, GV, Khosla Ventures, Octopus Ventures and others committed to advancing the future of fertility.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
