IPTO NORTH EAST AEGEAN INTERCONNECTION

### Quick Facts

<b>Countries</b>	Greece
<b>Specific Location</b>	Lemnos, Lesvos, Chios, Samos, Skyros; Mastichari, Kos island; Nea Santa, Thrace; Aliveri, Evia islan
<b>Financial Institutions</b>	European Investment Bank (EIB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	U
<b>Borrower</b>	Independent Power Transmission Operator SA
<b>Sectors</b>	Energy, Infrastructure
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 492.94 million
<b>Loan Amount (USD)</b>	\$ 492.94 million
<b>Project Cost (USD)</b>	\$ 1,643.12 million

## Project Description

As stated by the EIB, the project consists of the electricity interconnection of the islands of Lemnos, Lesvos, Chios, Samos, and Skyros to the mainland transmission grid (via Nea Santa in the area of Thrace to the north, and via Aliveri in the Evia island to the east), and to the Dodecanese islands grid (via Mastichari in the Kos island to the south). The connection will be mainly established through alternating current (AC) 150 kV cable interconnectors and 150 kV gas insulated (GIS) substations.

The project contributes to the energy and climate policy objectives of the European Union and Greece. It is expected to eliminate the electrical isolation of the concerned islands, ensure a more efficient, reliable and clean electricity supply in comparison to the status quo (local diesel or high-fuel oil power stations), improve security of supply, increase the hosting capacity for connection of Renewable Energy Sources in the region, contribute to the further economic development of the concerned islands, particularly via tourism.

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
