Project Description

According to the Bank's website, the project consists of investments in research, development and innovation (RDI) over the 2026-2029 period in development of new tools for industrial production, mining and rock excavation equipment which will be carried out in the Group's existing research and development (R&D;) centres primarily in Sweden, Finland and Germany, and to a lesser extent in other regional EU 27 countries.

The promoter's RDI investments aim at developing advanced, sustainable, and high-performance solutions across its mining and machining product lines to improve productivity, safety, and environmental sustainability in both its own and its client's industrial processes.

The operation supports the Bank's Innovation, Digital & Human Capital (IDHC) policy priority by financing RDI activities for the development of new products and technologies in the area of mining and rock excavation equipment, as well as in the field of tools and tooling systems for advanced industrial metal cutting. The project will fully contribute to TechEU under "Digitalisation and technological innovation", a core strategic priority within the Bank's Strategic Roadmap.

Early Warning System Project Analysis

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at:
