Voting Date	2025-12-12
Borrower	IMPAX ASSET MANAGEMENT (AIFM) LTD
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 35.23 million
Loan Amount (USD)	\$ 35.23 million
Project Cost (USD)	\$ 105.69 million

Project Description

As stated by the EIB, the operation is an EIB co-investment alongside the NEF IV fund, managed by Impax Asset Management, to finance small-scale photovoltaic installations and energy efficiency systems in commercial and industrial buildings across Germany. These systems include battery storage, heat pumps, electric vehicle charging stations, smart meters, and related financing solutions.

The aim is to develop decentralised generation assets and energy efficiency schemes that will help optimise energy consumption for small and medium-sized enterprises (SMEs) and MidCaps, while contributing to national and EU energy and climate goals--particularly the decarbonisation of electricity production, the reduction of reliance on fossil fuels, and the enhancement of energy supply security.

Details of the infrastructure fund's environmental and social due diligence procedures for ensuring compliance with national legislation, the principles and standards of relevant EU legislation and EIB's Environmental and Social Standards, as well as the capacity of the promoter to assess and monitor environmental and social risks and impacts, will be reviewed during appraisal.

Investment Description

- European Investment Bank (EIB)

Private Actors Description

No project contacts provided at the time of disclosure.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
