

 Early Warning System

EIB-20250316

S17 EXPRESSWAY PIASKI - HREBENNE

Quick Facts

| | |
|-------------------------|--------------------------------|
| Countries | Poland |
| Specific Location | Piaski, Hrebenne |
| Financial Institutions | European Investment Bank (EIB) |
| Status | Proposed |
| Bank Risk Rating | U |
| Borrower | Government of Poland |
| Sectors | Infrastructure, Transport |
| Investment Type(s) | Loan |
| Investment Amount (USD) | \$ 516.42 million |
| Loan Amount (USD) | \$ 516.42 million |
| Project Cost (USD) | \$ 1,335.82 million |

Project Description

As stated by the EIB, the project will finance the construction of four non-continuous 93.2 km long S17 expressway sections between Piaski and Hrebenne. In detail, it includes the establishment of a "greenfield", primarily 2x2 lane expressway, mostly along a new alignment, 14 grade-separated interchanges, advanced drainage systems, noise protection screens, as well as approximately 98 engineering structures, including bridges, viaducts, flyovers, and animal crossings. It also encompasses connections to local and service roads, six expressway service areas, and two expressway maintenance centres.

Construction permit has been granted for section 9 Tomaszów Lubelski - Hrebenne in May 2025.

The aim is to address market/network failures related to accessibility. The project contributes to improved efficiency of Poland's Trans-European Network (TEN-T), thereby improving accessibility and market integration.

The project will contribute to reduce safety-related negative externalities, by diverting heavy and transit traffic from the agglomerations crossed by the national and local roads. Additionally, it will improve accessibility in the region by adapting the road technical and operational parameters to the forecast traffic level, removing bottlenecks and completing missing elements of an efficient road infrastructure. Overall, the project supports public policy objectives aimed at developing an efficient and safe road transport system, properly adapted to mitigate the negative impacts of climate change.

The project was procured through seven works contracts: four were awarded to a Polish firm, one to a Spanish firm, one to a Turkish firm, and one to a consortium led by a Turkish firm and including partners from Poland and Kazakhstan.

Early Warning System Project Analysis

As stated by the EIB, according to a preliminary analysis, the project alignment directly intersects with five NATURA 2000 sites - PLB060013 Dolina Górnej Labunki, PLH060087 Doliny Labunki i Topornicy, PLB060021 Dolina Solokiji, PLB060012 Roztocze, PLH060093 Uroczyska Roztocza Wschodniego. It may also intersect with the NATURA 2000 site PLH 060030 Izbicki Przelom Wieprza depending on the final horizontal alignment. It also runs nearby several other NATURA 2000 sites. The compliance to the requirements of the Birds Directive 2009/147/EC and Habitats Directive 92/43/EEC will be verified in more detail during the appraisal.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: complaints@eib.org, by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
