Lactunion Modernization and Development Capex

### Quick Facts

Countries	France
Specific Location	Abbeville, Braine; Hauts-de-France
Financial Institutions	European Investment Bank (EIB)
Status	Approved
Bank Risk Rating	U
Voting Date	2026-01-14
Borrower	LACTINOV SERVICES SAS
Sectors	Agriculture and Forestry, Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	\$ 58.23 million
Loan Amount (USD)	\$ 58.23 million
Project Cost (USD)	\$ 144.41 million

### Project Description

As stated by the EIB, the promoter is a French dairy cooperative. The loan will support its investments to expand, modernise, and decarbonise the manufacturing process for UHT dairy-based products during the period 2025-2029.

The objective of the project is to modernise the Promoter's production facilities by upgrading production lines and expanding on-site storage capacity to enable the manufacture of UHT products for specialised nutrition markets, while also implementing technologies that reduce greenhouse gas emissions, in alignment with the Promoter's decarbonisation objectives.

The aim is to upgrade production lines and expand on-site storage capacity to manufacture UHT products for specialised nutrition markets, while also implement technologies that reduce greenhouse gas emissions, in alignment with the Promoter's decarbonisation objectives.

## Private Actors Description

As stated on the company's website, the Lact'Union cooperative is the result of the merger in 2013 between the historical cooperatives VPM and Coop'Alliance.

Founded in 1943 and 1945 respectively, they have each played a part in the history of the Picardy dairy industry and in its post-war reconstruction. The difficult aftermath highlighted the importance of this raw material and encouraged producers to form a cooperative.

In 1992, the two cooperatives decided to join forces for the first time to create Orlait, a subsidiary specialising in the marketing of dairy products to hypermarkets and supermarkets.

Another important step was taken in 2011 when a joint holding company was created with the aim of holding 100% of the subsidiaries' dairy activities. It was therefore only natural that Coop'Alliance and VPM merged in 2013 to become Lact'Union.

Today, our cooperative has 630 Cooperative Members, 375 collection points mainly covering the departments of Aisne, Marne, Nord, Pas-de-Calais, Somme, Oise, Loiret, and Yonne, for a collected volume of 230 million litres of milk per year.

The cooperative alone employs 40 people to serve its members. Our trucks collect the milk from the dairy farms 365 days a year and deliver it to its processing sites in the Hauts-de-France region, in Abbeville and Braine.

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

[http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
